Amity University Chhattisgarh is a part of India's leading education group with a vision to contribute to nation-building through education. The university provides globally benchmarked, research and employment oriented education. It boasts highly qualified and experienced core faculty, many distinguished guest faculties, world class infrastructure, dynamically designed curriculum and efficient placement team that helps all over development of students, thereby molding them into world class corporate leaders.

WELCOME TO RAIPUR – AN INTEGRATED CITY

The state capital of Chhattisgarh, Raipur, has been counted as a vital educational hub in India. The city has many institutes of national importance in various disciplines such as medicine, engineering, law, management, hospitality and pharmacy. It is the only Indian city which has prominent academic institutes, including Indian Institute of Management, National Institute of Technology, All India Institute of Medical Sciences, Hidayatullah National Law University and International Institute of Information and Technology. The permanent campus of Indian Institute of Technology will soon come up soon at Bhilai in Durg district (30 km from Raipur) of Chhattisgarh.

Raipur is a vital commercial and industrial destination for industries pertaining to power, steel, coal, minerals, iron and chemicals.

The presence of these prominent industries increases frequency of interaction with business leaders and stalwarts. The academic curriculum of the Amity University, Raipur, is woven around the experiential learning, hands-on training and industrial visits. These academic activities provide a podium to students for summer trainings, internships, orientation sessions and articleship. The practical approach and academic rigor towards learning help students of Amity University securing best opportunities to work with leading industries and business establishments.

Considered to be one of the world's first integrated city, Raipur has been on an expansion and infrastructure upgrade mode. The city offers all basic amenities and modern infrastructure, including Swami Vivekanand Airport, versatile tourists destinations, robust facilities like roads, parks and recreational zones.

INSPIRING FACULTY

The core faculty at Amity University Chhattisgarh comprises academicians who are also industry and domain experts. You will be taught by ex-captains of Industry and by renowned academicians. These inspiring faculty members bring in a mix of rich global experience from leading universities across the world as well as industry relevant experience from top MNCs.

The world class caliber of the faculty is evident from the numerous patents that they have filed, the prestigious Govt. funded research projects conducted by them and the highly sought after case studies developed by them, bought by leading institutions and organisations all over the world.

UNPARALLELED MENTOR-MENTEE PROGRAMME

Amity University Chhattisgarh has instituted the Mentor-Mentee Programme that uses a unique student-faculty mentorship model to empower students to achieve much greater heights in their career. Leveraging the extremely low student-teacher ratio, this mentor-mentee programme empowers students to use the knowledge and network of faculty as well as select members of the industry to align themselves with the right career and organisations. The students are able to reach out to faculty whenever they want to and are counselled on a regular basis by their mentors regarding their career choices, future course of action and much more.

CURRICULUM

At Amity, all learning is closely aligned with the industry, and the curriculum itself is developed in collaboration with diverse industry professionals and domain leaders from specialized sectors. It is only after extensive interactions and knowledge sharing with industry experts that the curriculum finally comes into shape. Moreover, the approach to learning at Amity is based a lot on actual work-like scenarios and job realities.

The learning process for students involves development of analytical skills, communication, and problem solving abilities, and a large experiential component of case studies, industry projects, presentations, research work and role-plays.

It is no wonder that Amity students are excelling in fields beyond their immediate area of study, as they are inspired to think beyond the classroom.
