

CAT Test Series – 2018

There will be a total of 30 Mocks in CAT Test Series 2018. The structure of the same will be as follows:

- 10 Tests called as “Master Series”
- 15 Proctored Mock CATs
- 5 Unproctored Mock CATs

Master Series:

- In the realm of test preparation, the question that is most bewildering is –“how should I attempt the paper?” There are no easy answers to this question. This question can be answered only if a student witnesses an expert taking the test. In CL’s one of its kind *Master Series*, you can now watch a master taking the test live. Each test in this series will be taken live by 5 experts. Watch what they do; follow their footsteps; climb the ladder of success. These tests will have a slight overlap with papers of previous years.

Proctored Mock CATs:

- These tests are simulation of the actual CAT and have been designed to take the surprise element out of the actual exam. Each of the 15 Proctored computer based mocks would be conducted over a period of 7-10 days, in a computer lab at a pre-designated location. Students will have the option of taking these Mocks from home as well through OTPs/Access codes. These mocks will be followed by detailed performance analysis, an All-India percentile ranking and video analysis. **If a student fails to take the test in the proctored format, that particular Mock would be made available to the student in Unproctored format 3 days after the proctored window closes.**

Unproctored Mock CATs:

- Unproctored mock tests will be available on our Student Information System (SIS) from the below mentioned dates. These tests can be taken from anywhere – home, cyber cafe, or CL's own computer labs – available at each one of our nationwide centers. **(all these mocks will be completely new mocks)**

Notes:

1. Students would need to book their slots before appearing for any of the computer based Proctored Mock CATs.
2. Each center will receive one login id for E-Pub where the Proctored Mocks will be available in non-downloadable format for them to conduct Mock Analysis Sessions.
3. Mocks 16 and 17 will be conducted in Proctored format on just one weekend. Centers should aim to conduct these mocks in external locations to ensure that a high volume can be catered to.
