About Us

Career Launcher, since its inception in 1995, has helped lakhs of students prepare for various undergraduate and postgraduate entrance exams.

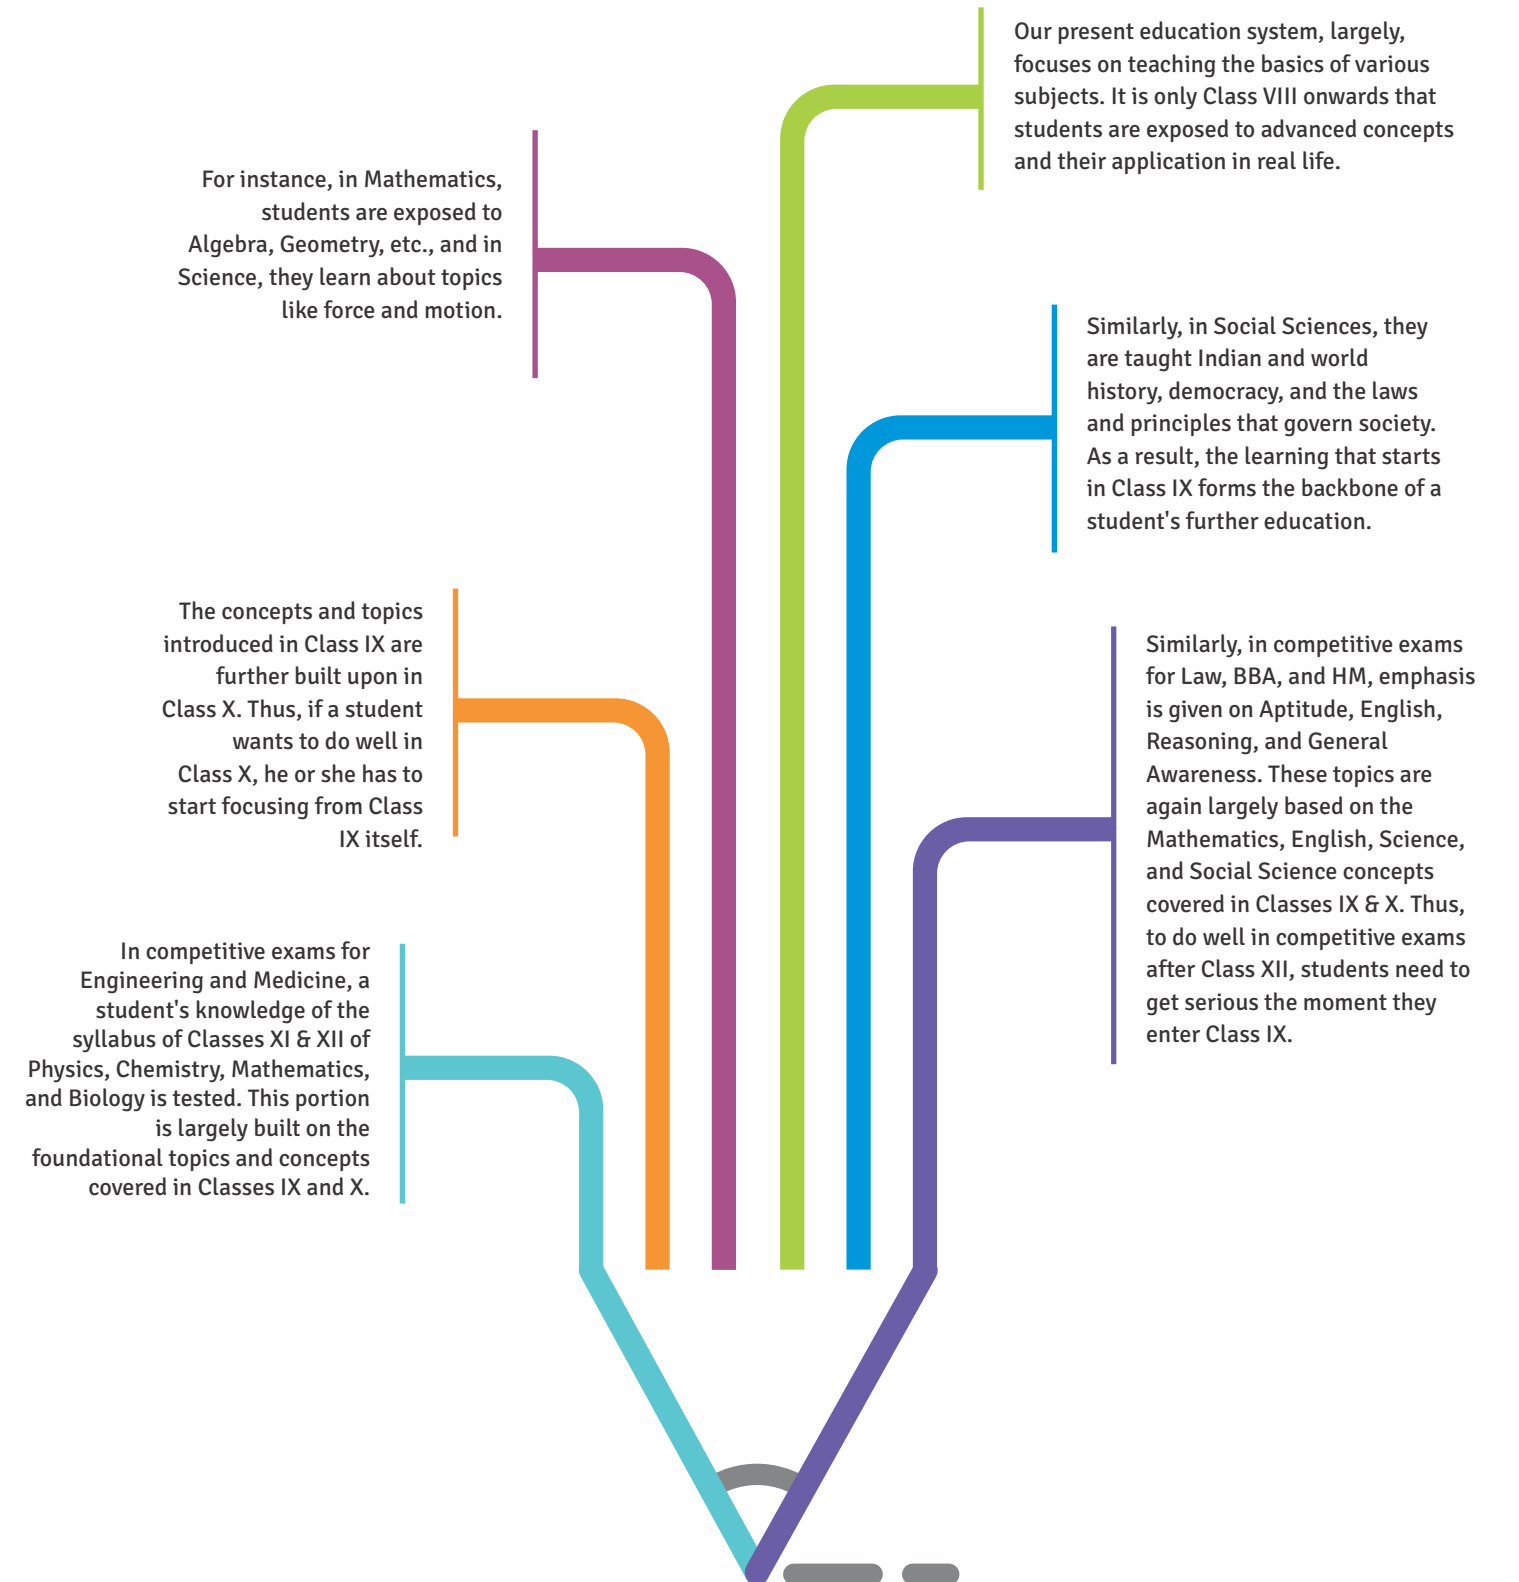

Career Launcher has emphasized on academic excellence, technological innovation, and expertise to work towards its core objective of enabling students to realize their potential and making their dreams come true.

Our proven track record in Engineering, Medical, Management, Civil Services, Law, etc., makes us the preferred choice of students across the country. This year alone, over a lakh students trusted Career Launcher with the task of fostering their career dreams.

Our focus is only you. No wonder, we have the best outcomes. The success of our students over the years is a testimony to this fact. With 1200+ IITians till date, our highly qualified faculty team has produced high rankers out of students year after year.

Today, Career Launcher has 250+ centers, located across 100+ cities in the country. We have international presence in Abu Dhabi and Dubai, where we offer Engineering/Medical Test Preparation to students.

Classes IX & X: A Crucial Phase

Classes IX & X: Importance of our Tuition Program

A well-known fact, which sometimes we fail to realize, is that, for a student, Class IX can be tougher than Class X. The shift from basics to advanced concepts can catch many students wrong-footed; and thus, they need to be closely guided at this turning point of their life. The only competitive exam that students face during this crucial period is the NTSE, which is our utmost priority.

Keeping in mind a student's requirements in Classes IX & X today, we have developed a program to strengthen students' knowledge base, which develops their thinking and problem-solving skills, enhances their self-awareness, and gives them a chance to showcase their talent. This is what is actually required in order to overcome the new and unique challenges that Classes IX & X bring.

For over 20 years now, Career Launcher has been the leader in preparing students for competitive exams at the UG and PG levels. We have guided students, with unmatched success, for management, engineering, law, BBA, and HM, among others.

Those who have joined us in Classes XI & XII for various competitive exams, have secured excellent results; and done extremely well in their respective school exams and Boards, as well. This reflects how comprehensive and thorough our Tuition program for school students is.

Prime Focus on Competitive Exams

The essence of a good and effective education is the ability to apply the concepts learned in school to real-life situations; and, thereby solve problems effectively.

It is widely believed that the challenges of the 21st century make it critical to encourage further development of scientific knowledge that today's learners possess. The NCERT is quite in line with the requirements of the

new era. It has implemented the National Talent Search Exam (NTSE) that consists of Scholastic Aptitude Test (SAT) and Mental Ability Test (MAT) + Language.

Another important competitive exam during these years is the Junior Science Olympiad (JSO), which is an international academic competition held annually; and the only one that covers Biology, Physics, and Chemistry at the same time.

Our Classroom Program (2019-20)

1-year Integrated Program for Class IX/X
Batches start: April, May & June

- ❖ 250+ hours of classroom teaching for syllabus completion
- ❖ Focus on individual student's performance & learning curve
- ❖ Min. 100 additional hours (avg.) of doubt-solving sessions with mentors
- ❖ 100+ hours of tests & evaluation
 - 8 Chapter Tests
 - 15 Board Mock Tests
 - 2 NTSE Mock Tests
 - 7 Part-Syllabus Tests
 - Weekly Tests

Curriculum

Our 1-year Integrated Program broadly follows the CBSE syllabus. This is in conjunction with additional topics that are important from the perspective of the syllabus prescribed for NTSE/Olympiads. In case of changes in any competitive exam/Boards, the same is incorporated in our curriculum and session plans.

Balance between Board & NTSE/Olympiads

Foundation Phase (Initial 6 months)

- ❖ The primary aim of this phase is to cover a major portion of the Class IX/X syllabus at the level relevant for schools. Thus, it is ensured that the student performs exceedingly well in the school exams.
- ❖ Support for Board/school exam in the last few months of Class IX/X with Revision Sessions, Board Mock Tests, and Doubt Sessions
- ❖ Board papers are usually designed keeping in mind the intellect of an average student, whereas, NTSE is conducted with an endeavor to reward students with high intellect. The aim of NTSE is to identify exceptionally talented students, who will gain further recognition as the nation's asset. Failure to do justice to both is a common concern. However, with meticulous planning & persistence, one can definitely strike a balance between the two.

Olympiads

The Science Olympiad Foundation conducts exams for different subjects, like the International Maths Olympiad (IMO), National Science Olympiad (NSO), National Cyber Olympiad (NCO), and the International English Olympiad (IEO). Students who clear the national stages are awarded scholarships, as well as an opportunity to represent their country at the international stage.

Highlights

Mode of exam	Offline
Medium	English & Hindi
Duration	2 hours
Sections	2 (Mental Ability Test & Scholastic Aptitude Test)

National Talent Search Examination (NTSE)

NTSE, conducted for students studying in Class X, was started by NCERT to identify and nurture talented students, and award them scholarships. The examination is conducted every year at two levels: Stage-I (State level) and Stage-II (National level). Around 9,00,000 to 10,00,000 students appear for Stage-I exam every year, out of which about 5,000 are selected for Stage-II. Of these 5,000, only 1,000 students are chosen for the scholarship.

Eligibility

- ❖ Class X students with 60% marks in Class IX are eligible for Stage-I
- ❖ Candidates with more than 80% marks in Stage-I would be eligible for Stage-II

Career Launcher helped me in each and every aspect to build a strong foundation for a great career ahead.

Kanishk Agarwal
(AIR 1648) IIT Roorkee

I am thankful to Career Launcher for guiding me in the Medical entrance admissions, besides preparing me with focused study material & tests.

Anjali
AIIMS, MBBS

The constant support provided here helped me in its truest sense.

Snigdha Basu
(NTSE Qualified)

I would like to express my heartfelt gratitude to the faculty of Career Launcher.
