**KLE LAW  
COLLEGE**

# A century of sharing knowledge.

As the KLE Society stands on the threshold of a century of service, I look back with joy at the extent of all that has been achieved. I am humbled too for, I am the torchbearer of an illustrious tradition of knowledge dissemination that has made a positive difference to the lives of countless thousands.

The KLE Society began in a humble way with the establishment of a single institution in the educationally backward North Karnataka region in 1916. Over the years it has grown into a virtual knowledge movement with nearly 250 institutions in its fold. Each of these institutions, like the honey bee, sources knowledge from far and wide and converts it into an educational curriculum that benefits knowledge seekers. In the process it brings about change and progress in individuals, in the community and in society at large to make a world of difference!

What the KLE Society is today, is the result of the cumulative effort and selfless striving of many, over the decades. But it was the spark lit by the founders and the visionaries around them that enabled all that followed - a beacon of hope that lights up the educational landscape.

Being at the helm, at this proud moment in the KLE Society's history, I continue to draw inspiration from the original spark, in the commitment to spread the light even further
